COMPASSIONATE AI SERIES

Ethical AI Systems

Forms Workbook

Dr. Sri Amit Ray · Compassionate AI Lab

Editable worksheets for the reviews described in *Ethical AI Systems* (Revised Expanded Edition, 2026; ISBN 978-81-69641-39-5). Complete each form, date it, and keep it with the system record. A form with an empty evidence column is a finding, not a failure of the form.

Contents

Form 1. System Register Entry
Form 2. Data Card
Form 3. Model and System Card Summary
Form 4. Ten-Index Scorecard
Form 5. Autonomy Ladder Decision
Form 6. Consent Envelope
Form 7. Service Pyramid Review
Form 8. Incident Report
Form 9. Audit and Reconstruction Drill
Form 10. Redress Log
Form 11. Transparency Report Outline

Purchasers of the book may reproduce these worksheets for their own use and within their organisations. Companion code and editable forms: github.com/compassionate-ai-lab/ethical-ai-systems. ISBN 978-81-69641-39-5.

Form 1. System Register Entry

System: _____ Completed by: _____

Field	Entry
System name	
Purpose and intended use	
Prohibited uses	
Risk class	
Named system owner	
Developer / vendor	
Deployment sites	
Affected population	
Model version in service	
Last evaluation date	
Last audit date	
Suspension authority	
Register date	

Notes and follow-up actions

Form 2. Data Card

System: _____ Completed by: _____

Field	Entry
Dataset name and version	
Provenance and collection dates	
Lawful basis	
Licences and restrictions	
Composition (records, sources, languages, geographies)	
Labelling method and agreement	
Known exclusions and gaps	
Sensitive attributes held for evaluation	
Anonymisation technique and test result	
Permitted uses	
Retention and deletion	
Owner	

Notes and follow-up actions

Form 3. Model and System Card Summary

System: _____ Completed by: _____

Field	Entry
Model family and version	
Training objective	
Evaluation suite and results	
Subgroup performance	
Known failure modes	
Tools and permissions	
Human gates	
Logging and retention	
Monitoring and drift alarms	
Out-of-scope uses	

Notes and follow-up actions

Form 4. Ten-Index Scorecard

System: _____ Completed by: _____

Index	Score (0-100)	Evidence	Date
AI Cage			
AI Traps Detection			
Bias Detection and Mitigation			
AI Hostility Data Training			
Data Source Diversity			
Ethical Data Collection Practices			
Transparency in Data Usage			
Data Anonymisation and De-identification			
Ethical Data Augmentation			
Human Oversight and Review			
Evidence complete for every applicable index?			
Approved N/A exclusions (with approver)			
Composite (toolkit)			
Mandatory legal, rights and safety gates passed?			
Blocking indexes below floor			
Release decision			

Notes and follow-up actions

Form 5. Autonomy Ladder Decision

System: _____ Completed by: _____

Field	Entry
Action class	
Permissible? (legal, rights and safety conditions met)	
Impact (low / moderate / high)	
Reversibility (reversible / partly / irreversible)	
Maximum permitted rung	
Rung requested	
Evidence for the rung	
Human role at this rung	
Stop mechanism and test date	
Rollback procedure	
Approved by	
Date	

Notes and follow-up actions

Form 6. Consent Envelope

System: _____ Completed by: _____

Field	Entry
User or principal	
Permitted action classes	
Spending cap	
Allowlisted recipients	
Confirmation threshold	
Identity sharing permitted?	
Data boundaries	
Time limit	
Revocation method	
Third-party disclosure rule	
Recorded on	

Notes and follow-up actions

Form 7. Service Pyramid Review

System: _____ Completed by: _____

Level	Owner	Evidence held	Gap	Due date
1 Foundations				
2 Data				
3 Model				
4 System				
5 Deployment				
6 Service interface				
7 Society and future generations				

Notes and follow-up actions

Form 8. Incident Report

System: _____ Completed by: _____

Field	Entry
Incident ID	
Detected on	
Detected by	
System and version	
Description of harm	
Affected people and scale	
Severity	
Immediate containment	
Logs preserved?	
Root cause	
Remediation and owner	
Regression test added	
Disclosure to affected people	
Public summary	
Closed on	

Notes and follow-up actions

Form 9. Audit and Reconstruction Drill

System: _____ Completed by: _____

Check	Result	Evidence	Auditor	Date
Decision selected for reconstruction				
Inputs recovered				
Model and prompt version confirmed				
Tool calls traced				
Authority and consent confirmed				
Human approval recorded				
Output and effect identified				
Timeline complete				
Gaps found				

Notes and follow-up actions

Form 10. Redress Log

System: _____ Completed by: _____

Field	Entry
Case ID	
Request received	
Decision contested	
Reason given to the person	
Reviewer	
Evidence considered	
Outcome	
Correction recorded	
Time to resolution	
Learning added to the register	

Notes and follow-up actions

Form 11. Transparency Report Outline

System: _____ Completed by: _____

Section	Content and source
Systems deployed and risk classes	
Index scores and reference populations	
Audits completed	
Incidents by severity	
Overrides and appeals	
Requests for explanation	
Changes to methods	
Priorities for the next year	

Notes and follow-up actions
